Rotary Scrubber
1/12-16

Dry-Foam is a fast drying, high sudsing shampoo for use in horizontal brush dry foam machines or rotary machines. Dry-Foam's controlled solvent action is tough on dirt, but still safe for use on all carpets. When the carpet has to be cleaned, but drying time is limited, Dry-Foam will do the job. Dry Foam works on all types of soil to loosen it from the carpet fiber. Browning or yellowing is minimized if used according to directions.

DIRECTIONS FOR USE

Shake well before using. Test fabric in inconspicuous place for color fastness before using.

Dry Foam Machines:

1. Prepare carpet for shampooing in normal manner: A Certified Pile Brush should be used for better cleaning.
2. Mix 1 part Dry-Foam to 4 to 8 parts water.
3. Apply with a hand brush to brush in excess foam.
4. The carpet can be dry and back in use in 30 minutes.

Rotary Scrubbers:

1. Mix 1 part Dry-Foam with 12 to 16 parts water.
2. For best results, fast drying and efficiency, shampoo carpet using 4 to 6 quarts stock solution per 100 square feet.
3. Finish carpet in the usual manner.
4. Use carpet protectors under furniture legs on damp carpet.

**Also available in a 40:1 concentrate*
