

SCRUB N SUDS

Manual Dishwashing Liquid

SCRUB n SUDS Liquid is a concentrated, viscous all-purpose detergent. Fast grease-cutting action and lasting suds are ideal for cleaning dried-on-food, and other hard to remove substances from pots, pans, dishes, glassware, and silverware.

SCRUB n SUDS Liquid is effective in hard or soft water. Leaves glassware crystal clean, without film or water spotting.

DIRECTIONS: Remove food and food buildup from plates, pots, pans, silverware, etc. prior to washing.

For normal dishwashing, pour 1 ounce of **SCRUB n SUDS Liquid** into sink of hot running water. Stir briskly. Begin by washing glassware, then flatware, dishes and finally pots and pans. For heavier encrusted pans, let soak for 5 minutes, use a brush for agitation of encrusted soils. Rinse thoroughly with hot water.

Note: Before using food products and packaging materials must be removed from the room or carefully protected. After using, surfaces must be rinsed with portable water source in a sufficient manner to prevent food contamination and/or inspection interference. This product must be used with proper ventilation, ensuring all vapors or odors associated with this product are dissipated before food products or packaging materials are re-exposed in the area.

- Mild / Low-Irritation
- Phosphate FREE
