

Removes Organic Stains, Soil and Related Odors

Ready-To-Use pH 6.5 - 7

Concentrated pH 6.5 - 8

Pints 6/cs.

C328-007

Quarts 6/cs.

C328-009

Gallon 4/cs.

C328-005

Bacteria Enzyme **DIGESTER** is excellent for removing organic soils and odors. Bacteria Enzyme provides instant cleaning action with quality surfactants and enzymes that break down and digest trapped organic residuals which cause odors in carpeting.

DIRECTIONS FOR USE

Shake well before using. Test fabric in inconspicuous place for color fastness before using.

Carpet Cleaning:

1. To use as a deodorizing pre-spotter, mix 50/50 with the warmest possible tap water and treat as you normally do with non-bio active spotters. For hard to remove spots, cover spot with a hot, wet towel if convenient. Cleaning action will continue as long as the carpet remains wet.

2. Carpet and Upholstery Odors caused by urine, feces, vomit, spoiled foods or other organic wastes: Clean area with wet sponge. Dilute 1 ounce (30 mL) of product with 2 ounces (60 mL) of warm water. Saturate surface with mixed solution and brush in well. For older, more difficult odors, it may be necessary to repeat procedure or inject into carpet backing.

3. Surface Odors: Dilute 1:16 for use on all water-safe surfaces.

4. Restroom Odors: Spray full strength on or around toilets and urinals to remove the odor source. Dilute 1:8 for mopping applications.

Bacteria Enzyme **DIGESTER** works great on Pet Urine and other pet accidents.
